

SUBJECT INDEX TO VOLUME XIX

*Published monthly by the authority of the
Chairman of the National Committee on Agricultural Services*

	Page
Advanced registry for pure-bred swine.....	139
Alberta soils after twenty years of irrigation, Changes in the nature and position of the soluble salts in certain.....	271
Analysis and interpretation of hog carcass data, The.....	155
Animal Production, Canadian Society of, Eastern Section.....	138
Apple seedlings, Some results of mineral fertilizers on.....	105
Apple trees, Rootstock and scion relationship in.....	85
Apples in bread baking, Note on the use of.....	83
Apples, Respiration curve for McIntosh.....	505
Apples, Some factors affecting the dropping of McIntosh.....	712
Apples with methyl bromide, Some observations on the fumigation of.....	7
Application of controlled atmospheres in the storage of fruits, The.....	66
Application of the Neubauer rye seedling method of soil analysis to fertility studies in Ontario.....	210
Application of the photoelectric colorimeter to soil analysis.....	236
Bacon hogs, Fish meal for.....	121
Bacon hogs, Growth and feed consumption of.....	736
Bacon, The market quality of Canadian.....	173
Bacterial counts of ice cream, Studies of media for determining total.....	69
Baldwin block, A biennial bearing record of an unproductive.....	583
Barleys, Malting quality of Canadian, II. Nineteen varieties, 1936 and 1937 trials	389
Barred Plymouth Rock cockerels, Effect of initial weight, range-feeding and fattening on gain and edible portion in.....	657
Bearing record of an unproductive Baldwin block, A biennial.....	583
<i>Beauveria bassiana</i> Vuill, II. A field experiment on the control of the European corn borer, <i>Pyrausta nubilalis</i> Hubn., by.....	531
Beef production in Western Canada, An experiment in.....	177
Biennial bearing record of an unproductive Baldwin block, A.....	583
Blending value of western Canadian wheat, The influence of nitrogenous, phosphatic and potassic fertilizers on the chemical composition and.....	380
Body measurements to the fattening gains and the percentage of edible flesh in the fowl, The relation of.....	589
Body weight in the domestic hen, A study of the energy required for maintenance, egg production, and changes in.....	542
Boron deficiency in mangels, Influence of lime in crop rotation, with a note on the occurrence of.....	330
Bread baking, Note on the use of apples in.....	83
Broilers, The cereals in the fattening ration. II. Their comparative values for fattening leghorn.....	602
Brown rot of peaches in transit and storage.....	458
Browning root rot to stem rust in causing injuries to wheat, The relation of.....	81
Canadian bacon, Market quality of.....	173
Canadian Society of Animal Production (Eastern Section).....	138
Cankerworm and its control by "solid-stream" spraying, Further notes on the fall	411
Carcasses with mature roasters, The comparative effect upon gains and composition of the, The cereals in the fattening ration. I.....	597
Celery in relation to certain physiological changes in cold storage, Nutritional studies of.....	57

	Page
Cereal growing on weedy land in northeastern Saskatchewan. Effect of heavy seeding with the use of fertilizer on the development of weeds and crops.	21
Cereals, A review of the investigations conducted in Western Canada on root rots of	565
Cereals in the fattening ration, The, I. The comparative effect upon gains and composition of the carcasses with mature roasters.	597
Cereals in the fattening ration, The, II. Their comparative values for fattening leghorn broilers.	602
Cereals, Root development in relation to root rots of.	475
Changes in body weight in the domestic hen, A study of the energy required for maintenance, egg production, and.	542
Changes in the nature and position of the soluble salts in certain Alberta soils after twenty years of irrigation.	271
Chemical characteristics to the geological origin of some Southern Ontario soils, The relationship of certain.	291
Chemical composition and blending value of western Canadian wheat, The influence of nitrogenous, phosphatic and potassic fertilizers on the.	380
Chemical composition of some western Canada prairie soils, Effects of cultivation and cropping on the.	258
Cherry on Vancouver Island, British Columbia, The pollination of the sweet.	524
Colorimeter to soil analysis, Application of the photoelectric.	236
Comparative effect upon gains and composition of the carcasses with mature roasters, The, The cereals in the fattening ration. I.	597
Comparative study of rapid chemical tests and Neubauer analysis on some typical Southern Ontario soils, A.	199
Comparative study of soil drifting in the field and in a wind tunnel.	249
Comparative values for fattening Leghorn broilers, Their, The cereals in the fattening ration. II.	602
Composition of the carcasses with mature roasters, The comparative effect upon gains and, The cereals in the fattening ration. I.	597
Control by "solid-stream" spraying, Further notes on the fall cankerworm and its.	411
Control of the European corn borer, <i>Pyrausta nubilalis</i> Hubn., by <i>Beauveria bassiana</i> Vuill. II. A field experiment on the.	531
Controlled atmospheres in the storage of fruits, Application of.	66
Corn borer, <i>Pyrausta nubilalis</i> Hubn. by <i>Beauveria bassiana</i> . Vuill. II. A field experiment on the control of the European.	531
Corn silage, The plane of nutrition and digestibility of, Digestibility studies with ruminants. IV.	622
Corn, the thermal death point of, from low temperatures.	687
Crop rotation, with a note on the occurrence of boron deficiency in mangels, Influence of lime in.	330
Cropping on the chemical composition of some western Canada prairie soils, Effects of cultivation and.	258
Cropping practices for flue-cured tobacco in the Norfolk district of Ontario.	42
Crops, Effect of heavy seeding with the use of fertilizer on the development of weeds and, Cereal growing on weedy land in northeastern Saskatchewan.	21
Crops, Improvement of cross-fertilized, strain building.	535
Cross-fertilized crops, Improvement of, strain building.	535
Cultivation and cropping on the chemical composition of some western Canada prairie soils, Effects of.	258
Cultures of <i>Ophiobolus graminis</i> Sacc., Pathogenicity tests with.	662
Cuttings, Honey as a stimulant to the rooting of.	586
Digestibility of corn silage. Plane of nutrition and, Digestibility studies with ruminants. IV.	622
Digestibility studies with ruminants. IV. Plane of nutrition and digestibility of corn silage.	622

	Page
Domestic hen, A study of the energy required for maintenance, egg production, and changes in body weight in the.....	542
Dropping of McIntosh apples, Some factors affecting the.....	712
Economic aspects of poultry keeping in Canada with special reference to egg production.....	551
Edible flesh in the fowl, The relation of body measurements to the fattening gains and the percentage of.....	589
Effects of cultivation and cropping on the chemical composition of some western Canada prairie soils.....	258
Egg production, A study of the energy required for maintenance, and changes in the body weight in the domestic hen.....	542
Egg production, Economic aspects of poultry keeping in Canada with special reference to.....	551
Energy required for maintenance, egg production, and changes in body weight in the domestic hen, A study of the.....	542
Erosion in the Peace, The menace of water.....	241
European corn borer, <i>Pyrausta nubilalis</i> Hubn., by <i>Beauveria bassiana</i> Vuill. II., A field experiment on the control of the.....	531
Evaluating orchard spray materials—a progress report.....	424
Experiment in beef production in Western Canada, An.....	177
Factors influencing swine carcass measurements, A study of.....	162
Factors influencing the reduction of methylene blue in milk.....	435
Fattening gains and the percentage of edible flesh in the fowl, The relation of body measurements to the.....	589
Fattening leghorn broilers, Their comparative values for, The cereals in the fattening ration. II.....	602
Fattening ration. I. The cereals in the, The comparative effect upon gains and composition of the carcasses with mature roasters.....	597
Fattening ration. II., The cereals in the, Their comparative values for fattening Leghorn broilers.....	602
Feed consumption of bacon hogs, growth and.....	736
Feeding punctures on strawberry roots, Note on the strawberry root aphid and the effects of its.....	95
Fertility studies in Ontario, Application of the Neubauer rye seedling method of soil analysis to.....	210
Fertilizer on the development of weeds and crops, Effect of heavy seeding with the use of, Cereal growing on weedy land in northeastern Saskatchewan.....	21
Field experiment on the control of the European corn borer, <i>Pyrausta nubilalis</i> , Hubn., by <i>Beauveria bassiana</i> Vuill. II., A.....	531
Fish meal for bacon hogs.....	121
Flesh in the fowl, The relation of body measurements to the fattening gains and the percentage of edible.....	589
Flue-cured tobacco in the Norfolk district of Ontario, Cropping practices for.....	42
Flue-cured tobacco, Investigations in sampling soils previously fertilized for.....	616
Flue-cured tobacco soils, Potassium studies in Ontario.....	304
Forage plants, Preliminary tests with some plant hormones in the rooting of cuttings of certain.....	494
Fowl, The relation of body measurements to the fattening gains and the percentage of edible flesh in the.....	589
Fruit trees, Investigations on transplanting.....	510
Fumigation of apples with methyl bromide, Some observations on the.....	7
Fundamental studies of the Neubauer plant seedling method for the determination of the root-soluble phosphorus in soils.....	221
Further notes on the fall cankerworm and its control by "solid-stream" spraying..	411

	Page
Gain and edible portion in Barred Plymouth Rock cockerels, Effect of initial weight, range-feeding and fattening on.....	657
Gains and composition of the carcasses with mature roasters, The comparative effect upon, The cereals in the fattening ration. I.....	597
Geological origin of some Southern Ontario soils, The relationship of certain chemical characteristics to the.....	291
Growth and feed consumption of bacon hogs.....	736
<i>Helianthus annuus</i> L., and their relationship to the yield of seed and oil, Some morphological characters of.....	372
Hen, A study of the energy required for maintenance, egg production, and changes in body weight in the domestic.....	542
Hog carcass data, The analysis and interpretation of.....	155
Hogs, bacon, growth and feed consumption of.....	736
Hogs, Fish meal for bacon.....	121
Honey as a stimulant to the rooting of cuttings.....	586
Hormones in the rooting of cuttings of certain forage plants, Preliminary tests with some plant.....	494
Horticulture in Northern Ontario.....	110
Ice cream, Studies of media for determining total bacterial counts of.....	69
Improvement of cross-fertilized crops—strain building.....	535
Influence of lime in crop rotation with a note on the occurrence of boron deficiency in mangels.....	330
Influence of nitrogenous, phosphatic, and potassic fertilizers on the chemical composition and blending value of western Canadian wheat, The.....	380
Influencing swine carcass measurements, A study of factors.....	162
Initial weight, range-feeding and fattening on gain and edible portion in Barred Plymouth Rock cockerels, Effect of.....	657
Injuries to wheat, The relation of browning root rot to stem rust in causing.....	81
Injury to peach trees, Fall spray.....	670
Interpretation of hog carcass data, The analysis and.....	155
Intra-seasonal changes in the nutritive value of pasture herbage, The, Pasture studies XV.....	701
Investigations conducted in Western Canada on root rots of cereals, A review of the	565
Investigations in sampling soils previously fertilized for flue-cured tobacco.....	616
Investigations on transplanting fruit trees.....	510
Leghorn broilers, Their comparative values for fattening, The cereals in the fattening ration, II.	602
Lime in crop rotation with a note on the occurrence of boron deficiency in mangels, Influence of.....	330
Macdonald College Soil Fertility Committee, Some observations on the work of the Maintenance, egg production, and changes in body weight in the domestic hen, A study of the energy required for.....	542
Malting quality of Canadian barleys. II. Nineteen varieties, 1936 and 1937 trials	389
Mangels, Influence of lime in crop rotation, with a note on the occurrence of boron deficiency in.....	330
Market quality of Canadian bacon, The.....	173
McIntosh apples, Respiration curve for.....	505
McIntosh apples, Some factors affecting the dropping of.....	712
Meadows without reseeding, Renovation of old.....	322
Media for determining total bacterial counts of ice cream, Studies of.....	69
Menace of water erosion in the Peace, The.....	241
Methyl bromide, Some observations on the fumigation of apples with.....	7

	Page
Methylene blue in milk, Factors influencing the reduction of.....	435
Micro-organisms. Research on certain soil-borne diseases as affected by other....	609
Milk, Factors influencing the reduction of methylene blue in.....	435
Mineral composition of soils and forage crops in Eastern Canada. I. Timothy hay and oat straw.....	673
Mineral fertilizers on apple seedlings, Some results of.....	105
Moisture content of soil under various crops and treatments at Saskatoon, Saskat- chewan, The nitrate and.....	279
Morphological characters of <i>Helianthus annuus</i> L. and their relationship to the yield of seed and oil, Some.....	372
Neubauer analysis on some typical Southern Ontario soils, A comparative study of rapid chemical tests and.....	199
Neubauer plant seedling method for the determination of the root soluble phosphorus in soils, Fundamental studies of the.....	221
Neubauer rye seedling method of soil analysis to fertility studies in Ontario, Appli- cation of the.....	210
Nitrate and moisture content of soil under various crops and treatments at Sask- atoon, Saskatchewan, The.....	279
Nitrogenous, phosphatic and potassic fertilizers on the chemical composition and blending value of western Canadian wheat, The influence of.....	380
Norfolk district of Ontario, Cropping practices for flue-cured tobacco in the.....	42
Northern Ontario, Horticulture in.....	110
Nova Scotia, Thirty years' experience with orchard sprays in.....	405
Nutrition and digestibility of corn silage, Plane of, Digestibility studies with ruminants IV.....	622
Nutritional studies of celery in relation to certain physiological changes in cold storage.....	57
Nutritive value of pasture herbage, Some problems in its estimation and some results thus far obtained at Macdonald College, Pasture Studies, XIV.....	345
Nutritive value of pasture herbage, The intra-seasonal changes in the, Pasture Studies, XV.....	701
Oat straw, Timothy hay, and, Mineral composition of soils and forage crops in Eastern Canada. I.....	673
Observations on the fumigation of apples with methyl bromide, Some.....	7
Oil, Some morphological characters of <i>Helianthus annuus</i> L. and their relationship to the yield of seed and.....	372
Ontario, Application of the Neubauer rye-seedling method of soil analysis to fertility studies in.....	210
Operation, test station.....	143
<i>Ophiobolus graminis</i> Sacc., Pathogenicity tests with cultures of.....	662
Orchard spray materials—a progress report, Evaluating.....	424
Orchard sprays in Nova Scotia, Thirty years' experience with.....	405
Pasture studies XIV; the nutritive value of pasture herbage. Some problems in its estimation, and some results thus far obtained at Macdonald College.....	345
Pasture studies XV. The intra-seasonal changes in the nutritive value of pasture herbage.....	701
Pathogenicity tests with cultures of <i>Ophiobolus graminis</i> Sacc.....	662
Peach trees, Fall spray injury to.....	670
Peaches in transit and storage, Brown rot of.....	458
Pear on Vancouver Island, The pollination of the, British Columbia.....	358
Phosphatic and potassic fertilizers on the chemical composition and blending value of western Canadian wheat, The influence of nitrogenous.....	380
Phosphorus in soils, Fundamental studies of the Neubauer plant seedling method for the determination of the root-soluble.....	221

	Page
Photoelectric colorimeter to soil analysis, Application of the.....	236
Physiological changes in cold storage, Nutritional studies of celery in relation to certain.....	57
Plane of nutrition and digestibility of corn silage, The, Digestibility studies with ruminants IV.....	622
Plant hormones in the rooting of cuttings of certain forage plants, Preliminary tests with some.....	494
Plant seedling method for the determination of the root-soluble phosphorus in soils, Fundamental studies of the Neubauer.....	221
Pollination of the pear on Vancouver Island, The, British Columbia.....	358
Pollination of the sweet cherry on Vancouver Island, The, British Columbia.....	524
Potassic fertilizers on the chemical composition and blending value of western Canadian wheat, The influence of nitrogenous, phosphatic and.....	380
Potassium studies in Ontario flue-cured tobacco soils.....	304
Potatoes in Prince Edward Island, Verticillium wilt of.....	722
Poultry keeping in Canada with special reference to egg production, Economic aspects of.....	551
Practicability of rapid soil tests in tobacco production.....	33
Prairie soils, Effects of cultivation and cropping on the chemical composition of some western Canada.....	258
Preliminary tests with some plant hormones in the rooting of cuttings of certain forage plants.....	494
Progeny tests of sires obtained on culled populations of daughters, On the validity of.....	1
Progress of swine improvement in Canada, The.....	139
Pure-bred swine, Advanced registry for.....	139
<i>Pyrausta nubilalis</i> Hubn., by <i>Beauveria bassiana</i> Vuill. II., A field experiment on the control of the European corn borer.....	531
Rapid chemical tests and Neubauer analysis on some typical Southern Ontario soils, A comparative study of.....	199
Rapid soil tests in tobacco production, Practicability of.....	33
Reduction of methylene blue in milk, Factors influencing the.....	435
Relation of body measurements to the fattening gains and the percentage of edible flesh in the fowl, The.....	589
Relation of browning root rot to stem rust in causing injuries to wheat, The.....	81
Relationship of certain chemical characteristics to the geological origin of some Southern Ontario soils, The.....	291
Renovation of old meadows without re-seeding.....	322
Research on certain soil-borne diseases as affected by other micro-organisms.....	609
Respiration curve for McIntosh apples.....	505
Results of station testing in Canada.....	147
Review of the investigations conducted in Western Canada on root rots of cereals, A Roasters, The comparative effect upon gains and composition of the carcasses with mature, The cereals in the fattening ration. I.....	597
Root development in relation to root rots of cereals.....	475
Root rots of cereals, A review of the investigations conducted in Western Canada on.....	565
Root rots of cereals, Root development in relation to.....	475
Root-soluble phosphorus in soils, Fundamental studies of the Neubauer plant seedling method for the determination of the.....	221
Rooting of cuttings, Honey as a stimulant to the.....	586
Rooting of cuttings of certain forage plants, Preliminary tests with some plant hormones in the.....	494
Rootstock and scion relationship in apple trees.....	85
Ropy milk, Some experiments dealing with.....	48

	Page
Ruminants. IV., Digestibility studies with, The plane of nutrition and digestibility of corn silage.....	622
Rye seedling method of soil analysis to fertility studies in Ontario, Application of the Neubauer.....	210
Sampling soils previously fertilized for flue-cured tobacco, Investigations in.....	616
Saskatchewan, Cereal growing on weedy land in northeastern, Effect of heavy seed- ing with the use of fertilizer on the development of weeds and crops.....	21
Scion relationship in apple trees, Rootstock and.....	85
Seed and oil, Some morphological characters of <i>Helianthus annus</i> L. and their relationship to the yield of.....	372
Seed value, Shrivelling of wheat kernels by stem rust and its effect on.....	481
Shrivelling of wheat kernels by stem rust and its effect on seed value.....	481
Silage, The plane of nutrition and digestibility of corn, Digestibility studies with ruminants. IV.....	622
Soil analysis, Application of the photoelectric colorimeter to.....	236
Soil-borne diseases as affected by other micro-organisms, Research on certain....	609
Soil drifting in the field and in a wind-runnel, Comparative study of.....	249
Soil Fertility Committee, Some observations on the work of the Macdonald College	315
Soil solution studies.....	233
Soil tests in tobacco production, Practicability of rapid.....	33
Soil under various crops and treatments at Saskatoon, Saskatchewan, The nitrate and moisture content of.....	279
Soils, A comparative study of rapid chemical tests and Neubauer analysis on some typical Southern Ontario.....	199
Soils and forage crops in Eastern Canada. I., Mineral composition of, Timothy hay and oat straw.....	673
Soils, Potassium studies in Ontario flue-cured tobacco.....	304
Soils previously fertilized for flue-cured tobacco, Investigations in sampling.....	616
Soils, The relationship of certain chemical characteristics to the geological origin of some Southern Ontario.....	291
"Solid-stream" spraying, Further notes on the fall cankerworm and its control by..	411
Soluble salts in certain Alberta soils after twenty years of irrigation, Changes in the nature and position of the.....	271
Some experiments dealing with ropy milk.....	48
Some morphological characters of <i>Helianthus annus</i> L. and their relationship to the yield of seed and oil.....	372
Some observations on the work of the Macdonald College Soil Fertility Committee	315
Some results of mineral fertilizers on apple seedlings.....	105
Southern Ontario soils, A comparative study of rapid chemical tests and Neubauer analysis on some typical.....	199
Southern Ontario Soils. The relationship of certain chemical characteristics to the geological origin of some.....	291
Spray injury to peach trees, Fall.....	670
Spray materials—a progress report, Evaluating orchard.....	424
Sprays in Nova Scotia, Thirty years' experience with orchard.....	405
Spraying, Further notes on the fall cankerworm and its control by "solid-stream"...	411
Station testing in Canada, Results of.....	147
Stem rust and its effect on seed value, Shrivelling of wheat kernels by.....	481
Stem rust in causing injuries to wheat, The relation of browning root rot to.....	81
Storage, Brown rot of peaches in transit and.....	458
Strain-building, Improvement of cross-fertilized crops.....	535
Strawberry root aphid and the effects of its feeding punctures on strawberry roots, Notes on the.....	95
Strawberry roots, Notes on the strawberry root aphid and the effects of its feeding punctures on.....	95

	Page
Studies of media for determining total bacterial counts of ice cream.....	69
Study of factors influencing swine carcass measurements, A.....	162
Study of the energy required for maintenance, egg production, and changes in body weight in the domestic hen, A.....	542
Sweet cherry on Vancouver Island, The pollination of the, British Columbia.....	524
Swine, Advanced registry for pure-bred.....	139
Swine carcass measurements, A study of factors influencing.....	162
Swine improvement in Canada, the progress of.....	139
Test station operation.....	143
Tests with some plant hormones in the rooting of cuttings of certain forage plants, Preliminary.....	494
Thermal death point of corn from low temperatures, The.....	687
Thirty years' experience with orchard sprays in Nova Scotia.....	405
Timothy hay and oat straw, Mineral composition of soils and forage crops in Eastern Canada. I.....	673
Tobacco in the Norfolk district of Ontario, Cropping practices for flue-cured.....	42
Tobacco, Investigations in sampling soils previously fertilized for flue-cured.....	616
Tobacco production, Practicability of rapid soil tests in.....	33
Tobacco soils, Potassium studies in Ontario flue-cured.....	304
Transit and storage, Brown rot of peaches in.....	458
Transplanting fruit trees, Investigations on.....	510
Validity of progeny tests of sires obtained on culled populations of daughters, On the.....	1
Verticillium wilt of potatoes in Prince Edward Island.....	722
Water erosion in the Peace, The menace of.....	241
Weeds and crops, Effect of heavy seeding with the use of fertilizer on the development of, Cereal growing on weedy land in northeastern Saskatchewan.....	21
Weedy land in northeastern Saskatchewan. Cereal growing on, Effect of heavy seeding with the use of fertilizer on the development of weeds and crops.....	21
Western Canada, An experiment in beef production in.....	177
Wheat kernels by stem rust and its effect on seed value, Shrivelling of.....	481
Wheat, The influence of nitrogenous, phosphatic and potassic fertilizers on the chemical composition and blending value of western Canadian.....	380
Wheat, The relation of browning root rot to stem rust in causing injuries to.....	81
Wilt of potatoes in Prince Edward Island, Verticillium.....	722
